THE KINGFISH MAINE STORY

We're setting a new bar for sustainability practices and growing our Yellowtail in pure optimal conditions; providing the natural pristine environment required to produce the highest quality of healthy and sustainable premium fish.

Thank you for joining us on the journey of the **Dutch Yellowtail from Maine**.

In 2022, we sent 2,000 yellowtail fingerlings from our farm, Kingfish Zeeland in the Netherlands, to Kingfish Maine. Raised on land in optimal conditions using recirculating aquaculture system technology, these fish are the first sustainable Yellowtail Kingfish raised in the USA. No antibiotics. No GMOs.

Now, these fish are ready for market, small batch style. Harvested every Monday and delivered to your business in a few days, it doesn't get fresher than this.

The care and keeping of this limited release **Dutch Yellowtail from Maine** shows in the taste. Natural brine meets rich buttery flavor perfect for any preparation. The future of fish is here.
